

Department of Engineering Education

2019 Seminar Series

Scott Labs | Room E103 | 10:20 am – 11:15 am

Alexandra Coso Strong - January 25

Florida International University - Assistant Professor

Exploring the role of research on engineering practice in engineering education

Thomas Scaife - February 1

Penn State University - Professor of Philosophy

Education Research beyond the Academy

Shanna Smith Jaggars - February 8

OSU - Assistant Vice-Provost of Research

Leveraging research for program improvement: The case of SpringForward

Christopher Porter - February 15

OSU - Post Doctoral Researcher

Physics Education Research at the Graduate Level

Donald Pope-Davis - February 22

OSU EHE - Dean

Special Joint Seminar Presented by the CoE Office of Diversity and Inclusion and the Department of Engineering Education

Marisa K. Orr - March 1

Clemson University - Associate Professor

Self-regulated decision-making competency as a predictor of major choice and persistence in engineering

David Knight - March 8

Virginia Tech - Associate Professor

Understanding Barriers and Illuminating Opportunities: Macro-scale research focused on broadening participation in engineering

Shellie Caudill - March 29

L Brands - R&D Director

How Entrepreneurial Minded Learning Translates to Industry

Darryl Williams - April 5

The Franklin Institute - Senior Vice President of S&E

Engineering to Advocacy: A Non-traditional Academic's Journey

Nicola Sochacka - April 12

University of Georgia – Research Scientist

Engineering education as an autopoietic system: A narrative analysis of stories 'told' about engineering in the public discourse

THE OHIO STATE UNIVERSITY

COLLEGE OF ENGINEERING
