Article of the Week (This week's water cooler talk – don't miss out!)

Drs. Kajfez and Kecskemety along with a group of undergraduate researchers and colleagues from other institutions just had an article published in the International Journal of Engineering Education (IJEE) related to their major selection work. The qualitative investigation aims to provide insights into how first year engineering students view and define the work of engineers in different majors. The article can be accessed here: https://www.ijee.ie/latestissues/Vol34-1/08_ijee3549.pdf

(Have you read a good article this week? Email the front desk (eng-EEDFrontDesk@osu.edu) with "Weekly Email" in the subject line so we can include it next week)
